Worldwide Course Recognition:

CALISO online training courses are recognized by all registrars and hiring companies as objective evidence of effective training on the particular standard and regulation. Since 1999, they have been the most popular and most widely used training courses in English, with over 30,000 trainees in the US and worldwide. The standard and regulations are provided online under licensing of the American National Standard Institute (ANSI), the American Society of Automotive Engineer (SAE), or courtesy of the Federal Drug Administration (FDA). **NOTE: If you do not have the IATF 16949:2016 standard, you will need to purchase it to take this course. You can purchase it from AIAG: [hardcopy](#), [e-Document](#).**

Course requirements

- The training is optimized for recent version of Microsoft Internet Explore Google Chrome and Firefox.
- If you are not familiar with IATF 16949:2016, we recommend you take the IATF 16949:2016 online course first.

Certificate requirements

The course uses a continuous evaluation method with on-going quizzes to facilitate the information retention. If your final average is equal or greater to 70% you will be issued a **training certificate**. If your final average evaluation is less than 70%, you will have to take a final exam and score above 70% to be issued the training certificate.
